

Hi, I am a 29 years old student from Mexico. Then my native language is Spanish. However, I have lived in France the last 3 years, so now I have a good level in French. I'm student in a Ph.D. in Population Studies.

I love the languages and Polish culture (and also the food), and I will need to visit some cities in Poland for interviews related to my thesis. Then I really need to learn at least a little of Polish (I know that is a very difficult language) because I think that will be crucial for my interviews.

Then, If you would like to learn French, Spanish or why not, learn to dance salsa !! Please, contact me. I would love to help you and may be you can help me with Polish. Hope to see you soon :)

You can contact me at: acandelas@yahoo.com
